

After-Meeting Evaluation Form

Meeting: Academic Board

Date: 9/12/09

Who attended from the Students' Union:

Jason Wallis (President), Katie Knowles (VP Education & Welfare)

Key outcomes for Students:

- Confirmed the change of Virtual Learning Environment to Moodle – trialling with faculty of Health & Life Science in January
- Registry are having a meeting with the timetable provider to make the system more interactive for students – more when we know

Any other points of interest:

- We have a concern that the data shows that the university is not a widening participation institution with certain demographics **despite** promoting itself as such – Jason and Katie are bringing this issue up with the Senior Management of the University at the next SU/SMT meeting on Friday 11th December
