

After-Meeting Evaluation Form

Meeting: Quality and Student Experience Committee (QSEC) **Date:** _____

Who attended from the Students' Union:

Katie Knowles (Vice President Education and Welfare), Andy Winter (General Manager)

Key outcomes for Students:

- Concerns were expressed by the Union around the support for disabled students and how currently there aren't enough members of staff to support their learning needs. This is being taken up by the Senior Management Team of the University.
- The University will be moving from Blackboard to Moodle as their Virtual Learning Environment of choice. We have asked that plenty of support and information on using the system be provided to help students through this process
- A central Action Plan detailing what all faculties and departments are doing to address students feedback from the National Student Survey is now being created to be held and monitored by QSEC – When this is made public, we will promote it to students
