

After-Meeting Evaluation Form

Meeting: Strategic Planning & Resources
Committee

Date:
14/10/09

Who attended from the Students' Union:

Jason Wallis (Union President)

Key outcomes for Students:

- Foundation degrees are going to be increasing in price – same price as a year of undergraduate (but existing students carry on in the same arrangement) – this will entitle Foundation degree students to the same bursaries, etc as undergraduate students

Any other points of interest:

- Very little new – just updates on current items from other meetings
- It was noted that the library has been underfunded for a number of year – although that money had been spent elsewhere
